

Dear Parents / Carers

Parent/Carer Communication

The Coleshill School is uses a free messaging service to communicate with parents, Groupcall Xpressions. Xpressions allows the school to send free messages and notifications to you, saving the school signification money as well as providing richer content and more frequent communications to parents.

To receive these messages, please download the Groupcall Xpressions app from the Apple, Google or Windows stores (Search 'Groupcall Xpressions').

To sign in, you will need your email address and your mobile number.

Once registered, for data security, a separate SMS will be sent to your mobile number to confirm it is correct and up-to-date. If you do not receive an SMS, it could be that the school has an incorrect record of your mobile number and you should contact the school to update it – you will not be able to sign into Xpressions without your email address and an active mobile number being accurately recorded by the school.

If when signing in you experience any problems with your email address or mobile number, please contact the school to check we have the correct details for you recorded.

Further information can also be found at the following link: <http://parents.groupcall.com>

For and on behalf of

The Coleshill School
