

Dear Parents / Carers

I do hope that you have had a wonderful summer with your families. Following our previous correspondences since March 2019, can I please take this opportunity to remind you to check our website before purchasing uniform, to ensure you buy the correct items. This is particularly in reference to our new standard of shoes. As you will remember they should be fully black unbranded shoes (not trainers), should have no different coloured soles or logos and should be made from polishable leather (or leather substitute); no canvas is allowed.

Please see the pictures below for some suggested shoes which are acceptable. As a parent myself I know that durability is a concern so please feel free to follow the links below which explore some very hardy shoes.

We will be checking uniform in the first week back and we will contact you if there are any issues relating to your child.
